

Pemikiran Asas Mengenai Pembangunan Dalam Konteks Pentadbiran Pembangunan Di Malaysia

Nasrudin Mohammed

Abstract

This paper discusses the main conception of development. It looks at various issues that encompass the basic understanding development holistically. The basic concepts of development are re-visited and compared by looking at some selected public policies such as the New Economic Policy, the five-year development plans, the National Agenda etc. Some theories of development are revisited and discusses in brief.

Keywords: *administration, management, policy analysis, national development plan*
